

Link Solutions, Inc. Achieves ISO 9001:2008 Recertification

Reston, VA – July 30, 2010 – Link Solutions, Inc. (LSi), a rapidly growing provider of high-end solutions to the federal government, announced today that it has successfully completed its International Standards Organization (ISO) 9001:2008 recertification.

ISO 9001 is known as an international quality management standard, maintained by the International Organization for Standardization and is administered by accreditation and certification bodies. The internationally accepted ISO 9000 series of standards were written to provide a consistent basis for understanding requirements relating to product and service quality and to provide guidelines to assist organizations implement and operate quality management systems. Certification to an ISO 9001 standard demonstrates efficient and effective business operations, continual improvement of the quality system and customer satisfaction to the provided services.

LSi was first presented with a Certification of Registration for ISO 9001 in 2009 and continues to hold Certificate Number: TRC 00554. In order to maintain certification, LSi was required to undergo comprehensive annual audits based on an audit of its Quality Management System (QMS).

“Achieving ISO 9001:2008 recertification is an important milestone for LSi. This recertification continues to illustrate to customers our strong commitment to quality at all levels of our organization.” said Bhupesh Wadhawan, Founder and CEO. “Customers want to be confident that they are doing business with an organization that can meet or exceed their needs in a timely manner. Successfully completing the rigorous process required for recertification is a clear sign that we are devoted to continually improving our quality management systems.”
