Link Solutions, Inc. Selected as Finalist for the SECAF Government Contractor of the Year

Reston, VA – March 24, 2010 – Link Solutions, Inc. (LSi), a rapidly growing provider of high-end solutions to the federal government, announced today that it has been selected as a finalist for the SECAF Government Contractor of the Year award for the second consecutive year. More than 90 nominations were received for a variety of categories and a panel of distinguished judges chose Link Solutions, Inc as one out of six for the Contractor of the Year Under \$6 million category. In its second year, these awards honor small and emerging government contractors and the people in the industry who rely on small business. The winners will be chosen on April 29, 2010 at the SECAF Awards Gala held at the Hilton McLean Tysons Corner.

“In its commitment to the small and emerging government contractor, SECAF is proud to host its second Awards Gala after the remarkable success of its inaugural program in 2009,” stated Shiv Krishnan, chairman of SECAF and CEO of government contractor INDUS Corporation. “SECAF recognizes that strong, emerging firms with revenues of less than \$25M in annual revenues rarely have an opportunity to be recognized, although they are accomplishing great things.”

This year’s ceremony host organizations are: John Marshall Bank; Goodman & Company; C2 Portfolio, Inc. (C2); Federal National Payables; The McLean Group, LLC; Pleasant Valley Business Solutions (PVBS); Phoenix Financial and Advisory Services, LLC; Squire, Sanders & Dempsey LLP; and Holland & Knight.

“We are proud to continue this tradition of recognizing great companies,” said Mark Moore and Scott Brezler, co-chairs for the Awards Gala selection committee. “This confirms our belief that this growing community sees value in the recognition of its peers.”

About Link Solutions

Since 2006, LSi has provided the U.S. government with mission critical solutions — supporting our employees and Partners as an engine to drive the support to customers’ missions. Solutions are developed in our core competencies of information technology, development services and business operations.
